About Us - The Port Chester - Rye Brook Chamber of Commerce

Celebrating our 80th Anniversary!

For over seventy-five years the Port Chester/Rye Brook Chamber of Commerce, a private membership organization made up of business people, professionals, and concerned citizens, has dedicated itself to the advancement of the business community and the community at large.

It has no formal connection with any governmental agency but works with individuals and groups in the public and private sectors while seeking to mobilize their collective strength to achieve for the common good goals which they probably could not hope to achieve by themselves. A chamber of commerce by nature is totally a-political. It does not advance any particular political philosophy but rather works with existing governments irrespective of party affiliation at all levels to promote the common good and improve the quality of life of all its people.

We are blessed with an abundance of talented people in this community, gifted men and women from all walks of life. It remains only for us to identify and recruit them into our ranks. By accomplishing this we hope to become the catalyst that will move the villages of Port Chester and Rye Brook into the premium position that they should have commensurate with their potential.
